Daly domain boundary framework

Assessment-tract outline*

Deposit / prospect status

- Deposit
- Prospect
- Group / occurrence

* Provisional assessment-tract outlines; not an asserted overall study-area boundary.

Sources: USGS CACB deposits/prospects and mineral-assessment datasets (SIR 2010-5090-T); domains from CACB_Structures.gpkg. Daly_Domain_Boundaries is a cartographic single-line framework. Locator: QGIS bundled world_map.gpkg, countries layer. Original polygons and domain assignments unchanged.
